TRANSCRIPT

of the Tele-Seminar "Fast Track to Your Dream Job"

Hello and thank you for joining this tele-seminar!

During this seminar I'm going to guide you through the 8 essential stages to get the job you really want.

I will be sharing **effective strategies**, and also **unconventional strategies** and tips, and more precisely:

- **2 unconventional strategies** – one to maximise your network, and one to sell yourself more effectively
- **5 unconventional tips** for powerful and attention-grabbing cover letters and résumés, and for interviews that make a deep impact.

**Unconventional
Strategies &
Tips**

At the end of this seminar you will have collected several practical and very powerful tips, and you will know:

- Why focussing on your passions will dramatically increase your chances to get the job you really want
- How you can find out what you really want, in a simple and yet extremely effective way
- How you can make sure that your dream job will respect your other needs (such as your financial needs, your work-life balance, etc.)
- How you can use an extremely powerful strategy to maximise your network and get to know THE RIGHT PEOPLE
- How all of this will help you write powerful sales and cover letters, a winning résumé, master your interviews and GET the job you really want.

Now, looking for a job can be quite a challenge. I've gone through this myself in the past. You think you've got so many things to do, and you've got to do them right, and you've got no idea how to do them right.

It can be quite stressful, and sometimes even overwhelming. It means you will have to **face change**, and this is always challenging: you've got no idea what your future life will be like, and whether you will like it.

But how could this challenging time be a great opportunity for you?

Opportunities

1. First of all, you've got the opportunity to **re-discover sides of yourself that you may have forgotten about!**
2. This means, you've got the opportunity to give your **self-confidence** a real boost.
3. You've got the opportunity to bring something new into your life: you will have a new job, you will get to know many new people, you will learn a lot of new exciting things, you will be able to do something you really enjoy. This brings **fresh air in your life, new energy!**

So how can you get there?
